When the downtrodden Noor rebel in the West, Wen, overhearing a plan to crush the Noor with powerful war machines, leaves the ghostly Bo, now a boy determined to transform himself into a living machine, and journeys into the war zone to warn the Noor--and her great love, Melik.

Ochre and Rust offers a fresh perspective on frontier relations between Australian Aboriginal people and European colonists. Nine museum artefacts take the reader into a fascinating zone of encounter and mutual curiosity between collectors and those indigenous people who piqued or responded to their interest. While colonialism is the broad frame, details gleaned from archives, images and the objects themselves reveal a new picture of interaction between individual Aboriginal people and European collectors. Philip Jones explores and makes sense of particular historical moments in colonial history, when Aboriginal people perceived and expected other, more elusive outcomes. Ochre and Rust, an elegantly written challenge to received wisdom about the colonial frontier, has won Australia's inaugural Prime Minister's Award for Literary Non-Fiction.

Blending heart-pounding action and historical accuracy, Harry Sidebottom's bestselling Warrior of Rome series took readers from the shouts of the battlefield to the whisperings of the emperor's inner circle. Now, Sidebottom sets his sights on one of the bloodiest periods of Roman history--the Year of the Six Emperors. In spring AD 235, a surprise attack and the brutal murder of Emperor Alexander and his mother ends the Severan dynasty and shatters four decades of Roman certainty. Military hero Maximinus Thrax is the first Caesar risen from the barracks. A simple man of steel and violence, he will fight for Rome unconditionally. The Senators praise the new Emperor with elaborate oratory, but will any of them accept a Caesar who was once a shepherd boy? In the north, as the merciless war against the barbarians consumes men and treasure, rebellion and personal tragedy drive Maximinus to desperate extremes, bloody revenge, and the borders of sanity. Iron and Rust creates a world both sophisticated and brutal, yet firmly rooted in history. Game of Thrones-meets-300: Rise of an Empire, this is a world of intrigue, murder, passion, and war--a world where men will kill to sit on the Throne of the Caesars.

Vehicle maintenance.

A balanced lifestyle enhances health, happiness and wellbeing. With practical techniques and strategies, this book explores how this balance can be found and how stress and anxiety, which are linked to being overworked and over busy, may be alleviated. It begins by examining the state of work-life imbalance in our everyday lives and discussing real life examples from a group of professionals working in health and social care. Their stories and experiences illustrate the problems caused by our modern, work-driven society and resonate with how many of us are living today. The author then provides practical tools and techniques to address this overwork culture and achieve a more balanced lifestyle. These simple, yet effective, strategies can be implemented quickly in everyday life. This practical resource addresses a problem affecting many professionals worldwide. It will be of particular interest to helping professionals, including occupational therapists, counsellors and therapists, and will allow them to apply the theories of work-life balance to real life in straightforward and tangible ways. The stories and techniques will also resonate with anyone interested in transforming their overworked or overburdened lives.
