This book seeks to build fundamental concepts on the subject of Linear Algebra and Partial Differential Equations. Each topic is lucidly and comprehensively explained as well as illustrated with diverse types of solved examples. Step-wise explanation has been provided to the students for the numerous solved examples to create better understanding of the course. Salient Features: - Exhaustive coverage on Partial Differential Equations and Fourier Series Solutions of PDE - Stepwise solutions provided for solved examples - Diverse and useful pedagogy such as text highlights, short answer questions, solved examples

Based upon an empirical study involving training and practising teachers from seven countries, this book investigates the various attitudes and practices towards the teaching of values and their place in the curriculum. Countries covered include: Australia, Eire, Israel, Slovenia, Switzerland, UK and USA. The findings of each of the countries are compared and contrasted in the light of the diverse cultural conditions which are apparent. This book brings together various approaches currently taken in values education and also suggests a theoretical foundation for decision making. The book culminates in practical examples, drawn from the evidence of the research project, which teachers can adapt for use with their own pupils. This book provides a challenging and imaginative perspective on values in education and comes at a time when educators face a new era which demands dynamic, transformative and reflective approaches.

American MORE! is a four-level course from a highly respected author team that's bursting with features for lower secondary students. The Teacher's Resource Pack contains unit tests, review tests, and term tests, as well as entry-level tests and end-of-year tests. There are extra grammar practice and communication activities for each unit of the course. The free Testbuilder CD-ROM allows teachers to create their own tests. It previews each exercise before inclusion, and can create 'A' and 'B' versions of each test so that students sitting next to each other don't share answers. Exam skills (KET-, PET- and Trinity-style) questions are also available.

Help pupils learn about different types of non-fiction texts and develop strategies for reading them. Activities range from analyzing leaflets and advertisements to locating information and looking at how it is structured. Most of the activities allow for differentiation by outcome and so may be used with the whole class. Where necessary children of lower ability are given more guidance and less to do in quantity. Extension activities are provided for the more able.
