DO ME A FAVOR? I'm serious - will you? I want you to think back to the last time you thought, "Oh, I love getting up in the morning when I haven't gotten enough sleep the night before!" Or, the last time you said, "Yep, going to bed at a reasonable hour is the easiest thing I've ever done." Oh, and this is my favorite: "Gosh, my favorite thing to do is figure out what I'm going to eat when I have four minutes and have no food in my fridge!" Um... never. You've never said those things. And, if you have, you're most likely delusional. But, if you're not one of those "I love waking up when I'm tired" people - do they even exist?! - then I'm happy for you. Why? Because your life is about to change. "High five" HEY BEYONCÉ -- WE'RE ABOUT TO WAKE UP FLAWLESS Automate Your Routines, Guarantee Your Results hilariously delivers a five-step formula that shows you how to automate your morning, evening, and eating routines. We'll also walk through how to permanently eliminate your bad habits, liberate your brain power, and focus on what is most important to you. The formula combines the principles of computer programming - a language whose sole purpose is to automate - with the basics of human behavior to show you how to guarantee the results you desire. Not a bad gig. (Note: I said the principles of computer programming, not computer programming itself. So, no stress for you non-techies out there. Seriously - stop stressing!) Oh, and did I mention that it only takes seven days to automate any routine? Yeah, you're going to love this. IMAGINE (ALL THE PEOPLE, LIVING FOR TODAY, OOH OOH, OOH OOH OOH) Just think for a second - How would your days change if your morning routine was executed flawlessly? -If you woke up on time? -If you woke up feeling refreshed? -If you didn't feel rushed in the morning? How would your days change if your evening routine was executed flawlessly? -If you went to bed on time? -If you read before going to bed? -If you planned for the next day? How would your days change if you never had to stress about food? If you knew exactly what you were going to eat for the day? If you didn't feel guilty about what you ate? If you ate consistently so you never felt hungry? THIS IS BETTER THAN OREOS AND PEANUT BUTTER. Here is what to look forward to in Automate Your Routines, Guarantee Your Results, should you make the wise" decision to keep reading: (*Note: "wise" can be substituted with "obvious" or "insanely intelligent") -You will automate your AM, PM, and eating routines. -Boring, stressful, and difficult parts of your routines will become second nature. -Your time will be liberated. -You will erase your bad habits. And you'll free up your brain power like Steve Jobs (a master of automation) to focus on more "take-over-the-world" type ventures. As a side note, Steve Jobs changed the world forever, was brilliant, and was crazy rich. So, if that's not enough to pull you in, then that's quite unfortunate for the both of us. -Unfortunate for you because you" I"ve maybe, probably...how do I say this...boring. -Unfortunate for me because you will mostly likely not read this book. I"ve digressed. What is stopping you from creating the life you actually want to be living? Consider this overly sassy (but don't pretend like you weren't entertained) book description complete. (Instead of chaos, overwhelm and exhaustion.) You can make this happen by building a daily routine that perfectly blends your personality with your career and personal obligations. Unfortunately, it isn't always easy to stick to a day-to-day ritual. You might be so busy that you can't add anything else to your crowded schedule. Or you might be following advice that doesn't match who you are. (Like forcing yourself to wake up at 5 a.m. when you work best late a night.) So what's the secret to creating a daily routine that sticks? The answer: Build one that matches your natural energy levels and gives you the flexibility to meet all of your day-to-day obligations. LEARN: How to Find (and Focus on) the 80/20 of Your Daily Activities The trick to finding that work-life balance is to be intentional with how you spend your time. Right now, only a handful of the activities you do each day will have the biggest big impact on your life -- whether you're at work, at home or enjoying a hobby. All you have to do identify these activities and focus on them instead of worrying about time-wasting activities. The great thing about this principle is that, once you're mindful of it, you learn to focus on the 20% that yields the best results. In the book, "Level Up Your Day," we show you how to identify the 80/20 activities in the six areas of your routine and explain how to get the most from each experience.
