Evaluating decision-making models. Some models are more appropriate to certain situations than to others. Universities will tend to be "garbage cans," but armies will tend to be rational hierarchies. The nature of the task, the technology, the personnel, and the context provide clues about what type of decision making will occur. The more specific the goal, the better understood the technology, the less professionalized the personnel, and the more stable the context, the more likely that ...

Decision making - Evaluating decision-making models ...

Establish decision making processes. A variety of decisions must be made during an evaluation including: what the focus of the evaluation will be; who will undertake the evaluation; how data will be collected and analysed; how the evaluation will be reported; and who will have access to the final report. Therefore, it is important to establish a decision making process to ensure agreement can be reached on how decisions will be made.

Establish decision making processes | Better Evaluation
