Featuring recipes drawn from familiar classic dishes and new favorites, Laura Lea's new book, Simply Laura Lea, offers delicious home-cooked food without sacrificing healthy eating.

This volume explores the potential of employing a relational paradigm for the purposes of interdisciplinary exchange. Bringing together scholars from the social sciences, philosophy and theology, it seeks to bridge the gap between subject areas by focusing on real phenomena.Although these phenomena are studied by different disciplines, the editors demonstrate that it is also possible to study them from a common relational perspective that connects the different languages, theories and perspectives which characterize each discipline, by going beyond their differences to the core of reality itself. As an experimental collection that highlights the potential that exists for cross-disciplinary work, this volume will appeal to scholars across a range of field concerned with critical realist approaches to research, collaborative work across subjects and the manner in which disciplines can offer one another new insights.

Thirty years after completing his military service, Ziya flees the spiraling turmoil and perplexing chaos of the city where he lives to seek a peaceful existence in a remote village-of which he has heard dreamlike tales. Greeted by his old friend from the army, Kenan, who has built and furnished a vineyard house for him, Ziya grows accustomed to his new surroundings and is welcomed by Kenan's family. However, the village does not provide the serenity Ziya years for, and old memories of his military service on the treacherous Syrian/ Turkish border flood his thoughts. As he battles specters of the past, his rejection of village life provokes an undercurrent of ill feeling among the locals, not least towards Kenan, who has incurred heavy debts by his generosity to the man who may have saved his life. Toptas masterfully blurs the borders between dreams and reality, truth and memory in this gripping tale. Like Turkey itself, the writer sits between the traditions of the East and the West, creating bold new literature. In his own country he sits comfortably on the shelf beside Orhan Pamuk, and his first novel in English is poised to enchant those same readers.

Here, in one volume, is a selection of the core and essential writings by internationally renowned scholar, mystic, and author Ernest Holmes, providing readers with a library of the most important ideas in the religious psychology that Holmes defined. The Essential Ernest Holmes comprises selections from classic works such as This Thing Called You, The Science of Mind textbook, and Creative Mind and Success-but also included are brilliant passages from some of Holmes's lesser-known works, such as The Voice Celestial, as well as a generous sampling from articles and lectures. The book features remembrances of the beloved sage and teacher from the works of his contemporaries; a chronology of Holmes's life and work; and an accessible introduction by editor Jesse Jennings that frames Holmes's body of ideas for all readers.
