Steps to Knowledge: The Book of Inner Knowing Steps to Knowledge is the Book of Inner Knowing. Its one-year study plan, which is divided into 365 " steps, " or lessons, is designed to enable students to learn to experience and to apply their Self-Knowledge, or Spiritual Power, in the world. Steps to Knowledge sets out to accomplish this task in a step-by-step manner as students are introduced to the essential ideas and practices which make such an undertaking possible. Practicing every day provides a solid foundation of experience and develops the thinking, perception and self-motivation necessary for both worldly success and spiritual advancement. Steps to Knowledge describes Knowledge in the following way: " Knowledge represents your True Self, your True Mind and your True Relationships in the universe. It also possesses your greater calling in the world and a perfect utilization of your nature, all of your inherent abilities and skills, even your limitations, all to be given for good in the world. " (Step 2) Knowledge is the deeper spiritual

mind that the Creator has given to each person. It is the source of all meaningful action, contribution and relationships. It is our natural Inner Guidance system. Its reality is mysterious, but its Presence can be directly experienced. Knowledge is remarkably wise and effective in guiding each person in finding his or her right relationships, work and contribution. It is equally effective in preparing one to recognize the many pitfalls and deceptions that exist along the way. It is the basis for seeing, knowing, and acting with certainty and strength. It is the foundation of life. Steps to Knowledge has been provided as a Way for individuals who feel that a spiritual calling and purpose are emerging in their lives, but who need a new approach to fully comprehend what this means. Often these individuals have felt this pull for a long time. Steps provides a foundation upon which they can begin to respond to this calling. The only entrance requirement is the determination to know one ' s purpose, meaning and direction.

As one of the most prolific writers of the Bible and a major leader in the formation of the early church, Saint Paul is often considered the greatest influencer after Jesus in the history of Christianity. He also remains one of the more controversial figures--celebrated by some for his work in spreading the Christian message and criticized by others for promoting what they consider to be a lofty, complex version of it. What we do know, however, is that Paul played an unarguably significant role in the growth of the church, bringing Jesus's message far beyond previous reach. In this companion title to its well-established forerunner *In the Steps of Jesus*, Peter Walker uses his expertise in biblical studies and his extensive experience leading tours around the Mediterranean to bring the world of Saint Paul vividly to life. Following Luke's account in the Book of Acts as well as evidence from Paul's own letters, Walker reconstructs the apostle's wide-ranging travels and describes the many places Paul visited as readers would encounter them today. In doing so, he brings to light the issues that Paul confronted in the growing church and helps readers understand the motivation that

The Secret Doctrine, Madame Blavatsky tells us that we are given in our lives opportunities to acquire enough of the right sort of information to take us to perfection, but we have not within our personality equipment the power to synthesise the knowledge we have gained. This is indeed true. There is no lack of teachings. Our library shelves are stacked with books, read and unread, our Halls of Learning bulge with enough knowledge to make Masters of us all, yet that wisdom, the deposit of the ages, given out by the initiates and Master lies practically ignored. Very few, only a handful in each country, are prepared to take the Secret Path to self-mastery. Only the Few will search deeper than that narrow margin or surface area of wisdom which merely brings comfort to some thwarted aspect of the personality. In the Bible, Jacob's Ladder is the stairway to heaven, the five initiations which you must undergo, and in yoga we speak of building the Antahkarana - the rainbow bridge to the higher worlds. This, then, is the goal - this is the journey upon which you are about to embark. As Life itself is unending, so too is this a journey without an end, and just as there is no end to life, there is no need to think of the end to this journey. Life is a flow of becoming, and so the journey is the process of becoming.
