Natural & Organic Liquid Soap Making Business Startup Learn How to Make Shampoo, Conditioner, Body Wash, Sunscreen Lotion, Muscle Balm, Hand Sanitizers, Pet Shampoo & So Much More I started making Body wash, shampoo and conditioners in 2004 when after a couple of allergy tests my dermatologist advised me not to use any store bought soap or shampoo. The doctor said my skin discoloration issue was an adverse chemical reaction from the soap. Soon my necessity to make soap became a true passion. It wasn't until 2012 when my husband got laid off from his job, I had to seriously think about how to turn my passion into a small home based business, and I did. I grew my business into a decent business making not only Shampoos or liquid soaps, but I ventured into making body scrubs, body wash, SPF lotions, muscle rubs, bug repellent, hand scrub (mostly for my husband, so he can use after working on his 65 Mustang), hand sanitizer and even dog shampoo for our 10 years old Dalmatian. This book is not about my success in business, but I want to focus on you and your ability to make your passion into a home based business which can potentially grow into a big business. Lately, the new trend is all organic and all natural Beauty products, so I think this is the right time to get into this business. I put my best efforts to make this book easy to read and follow so you can get started and see a big success in a short period of time. In this book, my goal is to you make you understand and learn how each ingredient works with each other and how to create your own recipes and flavors, so your creative side comes out and creates something unique that is truly yours and only yours. If you are looking to learn the process, then this is the book for you but if you are just looking just for recipes then this not the book for you. This book is Divided into Two Parts. In the First Part, I Show you How to Actually Create Your Product Line 19 Essential Ingredients For All Soap Making What And How To Use Essential Oils 12 Creative Ways To Use Essential Oils 10 Carrier Oils And Their Use In Soap Making Ingredients You Need To Make Liquid Soap Equipment You Need Soap Making Process How To Make Shampoo & Conditioner How To Make Dog Shampoo How To Make Body Wash & Body Scrub How To
