solutions on the empty space after each problem.

Midterm 2 - Stanford CS Theory

Handout MS2: Midterm 2 Solutions 2 eb, we obtain a new spanning tree for the original graph with lower cost than T, since the ordering of edge weights is preserved when we add 1 to each edge weight. This contradicts the assumption that T was an MST of the original graph. Many people gave an argument based on Kruskal's algorithm: that algorithm finds an MST
