While the vehicle can operate if it moves into gear, the chances of breaking the shift cable is high, and this will leave you stranded. In cases where the transmission shift cable breaks between gears, it is likely the transmission will be locked into park, reverse, or neutral, even though the gear selector reads drive or a lower range.

Mitsubishi Mighty Max Transmission - AutoZone.com

The transmission fluid in a Mitsubishi should be changed between 15,000 and 30,000 miles, depending on your driving conditions. Since a transmission is more likely to undergo a hefty amount of strain in highly polluted areas, it is possible that thickened sludge and harmful particles would enter your transmission closer to the 15,000 mile-mark.
