When a 35 mile
stretch of the

former Waverley
route from

Edinburgh to

Carlisle reopened

on 6 September

2015, it became

the most significant

reopening of any

UK railway since

Read Free Mtr Corporation

the infamous Beeching Report, 'The reshaping of British Railways', was published in March 1963. In his report, Dr Richard Beeching recommended sweeping closures of lines across the UK to improve the financial performance of

Read Free Mtr Corporation

British railways,
which led to
wholesale closures
over the following
decade and a
reduction in the UK
rail network from
18,000 miles in
1963, to some
11,000 miles a
decade later. But
since that low point
was reached in the
early 1970s a

Read Free Mtr Corporation

revolution has
been taking place.
Passenger traffic
on the railways is
now at its highest
level since the
1940s and from
Alloa to Aberdare,
as well as from
Mansfield to
Maesteg, closed
lines have
reopened and the
tide of Beeching

Read Free Mtr Corporation

Closures has been gradually rolled back. Scores of stations have been reopened and on many of the newly revived lines, passenger traffic is far exceeding the forecasts used to support their reopening. In this comprehensive survey of new and

Read Free Mtr Corporation

reopened railways and stations across England, Scotland and Wales, Gareth David asks what it tells us about Dr Beeching's report, looking at how lines that were earmarked for closure in that report, but escaped the axe, have fared and reviews the

Read Free Mtr Corporation

host of further routes, which are either set to be reopened or are the focus of reopening campaigns.

With the delivery of projects becoming ever more challenging because of the current economic
