Donald R. Kelley

Contradiction in Contemporary Russia

2014 Paperback

This book provides a comprehensive and systematic overview of Putin's third term as Russia's president. It covers political, international relations, economic

as president in their
wider context,
discussing his overall
popularity, the
weakness of potential

development of the

Russian Federation
as a relatively new
state.

In this book Richard
Sakwa provides a
new analysis of the
end of the Cold War
and the subsequent
failure to create a
comprehensive and
inclusive peace order
in Europe. The end of
the Cold War did not

Download Free Putin Redux

create a sustainable peace system. Instead, for a quarter of a century a 'cold peace' reflected the tension between cooperative and competitive behaviour. None of the fundamental problems of European security were resolved, and tensions

Download Free Putin Redux

accumulated. In 2014 the crisis exploded in the form of conflict in Ukraine, provoking what some call a 'new Cold War'. Russia against the Rest challenges the view that this is a replay of the old conflict, explaining how the tensions between Russia and the Atlantic community

reflect a global
realignment of the
international system.
Sakwa provides a
balanced and
carefully researched
analysis of the
trajectory of European
and global politics
since the late 1980s.

Now in a thoroughly
revised, expanded,
and updated edition,

this classic text provides an authoritative and current analysis of contemporary Russia. Leading scholars explore the daunting domestic and international problems Russia confronts, considering a comprehensive array of economic, political, foreign policy, and

2014 Paperback

The book explores
developments in
Russia-China
relations in the
aftermath of the

global economic crisis, arguing that the crisis transformed their bilateral affairs, regional liaisons and, crucially, altered the roles both states play on the international arena. Discussing how Russo-Chinese cooperation has accelerated in energy trade, arms sales and in the Russian Far

Download Free Putin Redux

East, the focus is on how the still mutually advantageous relationship has become more asymmetric than ever, reflecting China's meteoric rise and Russia's decline. These dynamics are explored through three perspectives: domestic, regional and global.

Download Free Putin Redux

Domestically, the book traces the role of political coalitions and key interest groups involved in how the two states shape their reciprocal policies. Changes in the regional dimension are examined with particular reference to a new status quo emerging in Central Asia. The book

Download Free Putin Redux

concludes by explaining how the changing relationship is affecting the international order, including the balance of power vis-à-vis the United States as well as Russia and China's changing attitudes towards global governance.
