In this fully revised and expanded third edition of the bestselling *Reciprocal Teaching at Work*, Lori D. Oczkus provides both tried-and-true and fresh solutions for teaching reading comprehension. Reciprocal teaching is a scaffolded discussion technique that builds on the Fab Four strategies that good readers use to understand text: predicting, questioning, clarifying, and summarizing. With a focus on these four evidence-based and classroom-tested strategies, Oczkus presents new ways to use reciprocal teaching to improve students' comprehension while actively engaging them in learning and encouraging independence. Appealing to students and teachers alike, reciprocal teaching encompasses social aspects of teaching and learning with modeling, think-alouds, and discussion. This helpful guide is packed with fresh material, including * More than 40 new and updated step-by-step lessons and minilessons that reflect current thinking and best practice. * Dozens of rich suggestions for diving into informational texts. * Updated research and relevant results that show the effectiveness of reciprocal teaching. * Creative and targeted tips that capitalize on the specific benefits of whole-class settings, guided reading groups, and literature circles. * Ideas for differentiating instruction for struggling readers and English language learners. * New and newly designed support materials, including reproducibles, posters, bookmarks, and a lesson planning menu. With a wealth of ideas to get you started—and keep you going—this is the all-inclusive resource you need to help students become active, engaged, and independent readers who truly comprehend what they read. Reviews and Testimonials "Literacy coach and author Lori Oczkus knows how to take the best of what works from long-established research and showcase it to make teaching and learning more effective, engaging, and enjoyable. In her latest edition of *Reciprocal Teaching at Work*, she demonstrates how to scaffold instruction so that all K – 12 students can benefit from reciprocal teaching techniques, what she calls the "Fab Four"—predicting, questioning, clarifying, and summarizing—in whole-group, guided reading, and book club settings, for both fiction and informational texts. In clearly delineated lessons and minilessons, Lori deftly shares how to support students' learning, including English language learners and students who struggle, so they can successfully apply and monitor those four discussion strategies—as well as troubleshoot problems—to yield significant progress in their reading comprehension. Filled with great practical ideas, this gem of a book is a must-have for all literacy educators!" —Regie Routman, author of *Read, Write, Lead; Literacy Essentials, and Reading Essentials* "Reciprocal teaching works to push students into deeper learning. There are decades of research on the impact of this instructional approach, and this book shows you how to implement and refine the practice such that all students succeed." —Doug Fisher, author of *Checking for Understanding and Visible Learning for Literacy* "One of the great instructional research discoveries of the past three decades has been the efficacy of reciprocal teaching for improving student learning and reading comprehension. More than anyone, Lori Oczkus has explored practical ways for making reciprocal teaching an integral part of nearly any classroom setting. This current work by Lori represents the epitome of her work in translating reciprocal teaching research into practice. Readers will find this immensely readable book filled with strategies that can be easily implemented and that will improve student learning. If you are interested in improving your students' reading achievement, you need to read this book!" —Timothy Rasinski, author of *The Fluent Reader and Close Reading with Paired Texts* "In this new edition of *Reciprocal Teaching at Work*, Lori Oczkus offers new thinking while reinforcing the best practices that make her ideas timeless. Through these engaging lessons and smart instructional moves, you will empower your students to build the confidence and competence they need to become strong, independent readers." —Donalyn Miller, author of *The Book Whisperer* "On every page of this book, in every activity and plan, the voice of a gifted and empowering teacher inspires the reader. In a major revision of her classic work, Lori Oczkus engages the immediacy and demands of today's classrooms with the most robust constellation of strategies for teaching comprehension. She compellingly demonstrates how the "Fab Four" are engaged across the grades, and she powerfully scaffolds, supports, and reassures teachers in their

efforts to incorporate reciprocal teaching across a broad communication, textual, and digital terrain." —Shane Templeton, Foundation Professor Emeritus of Literacy Studies University of Nevada, Reno, NV

Use informational text in the classroom effectively to support close reading and comprehension. This dynamic resource provides a clear explanation of how to use informational text in the classroom and includes practical tips, suggestions, lesson ideas, and digital resources. Aligned to College and Career Readiness and other state standards, this is the perfect tool to enhance students' comprehension of informational text.

This practitioner resource and course text has given thousands of K-12 teachers evidence-based tools for helping students--particularly those at risk for reading difficulties--understand and acquire new knowledge from text. The authors present a range of scientifically validated instructional techniques and activities, complete with helpful classroom examples and sample lessons. The book describes ways to assess comprehension, build the skills that good readers rely on, and teach students to use multiple comprehension strategies flexibly and effectively. Each chapter features thought-provoking discussion questions. Reproducible lesson plans and graphic organizers can be downloaded and printed in a convenient 8 1/2" x 11" size. New to This Edition *Chapters on content-area literacy, English language learners, and intensive interventions. *Incorporates current research on each component of reading comprehension. *Discusses ways to align instruction with the Common Core State Standards. *Additional instructional activities throughout.

"Every student deserves a great teacher, not by chance, but by design" — Douglas Fisher, Nancy Frey, & John Hattie What if someone slipped you a piece of paper listing the literacy practices that ensure students demonstrate more than a year ' s worth of learning for a year spent in school? Would you keep the paper or throw it away? We think you ' d keep it. And that ' s precisely why acclaimed educators Douglas Fisher, Nancy Frey, and John Hattie wrote Visible Learning for Literacy. They know teachers will want to apply Hattie ' s head-turning synthesis of more than 15 years of research involving millions of students, which he used to identify the instructional routines that have the biggest impact on student learning. These practices are "visible" for teachers and students to see, because their purpose has been made clear, they are implemented at the right moment in a student ' s learning, and their effect is tangible. Yes, the "aha" moments made visible by design. With their trademark clarity and command of the research, and dozens of classroom scenarios to make it all replicable, these authors apply Hattie ' s research, and show you: How to use the right approach at the right time, so that you can more intentionally design classroom experiences that hit the surface, deep, and transfer phases of learning, and more expertly see when a student is ready to dive from surface to deep. Which routines are most effective at specific phases of learning, including word sorts, concept mapping, close reading, annotating, discussion, formative assessment, feedback, collaborative learning, reciprocal teaching, and many more. Why the 8 mind frames for teachers apply so well to curriculum planning and can inspire you to be a change agent in students ' lives—and part of a faculty that embraces the idea that visible teaching is a continual evaluation of one ' s impact on student ' s learning. "Teachers, it ' s time we embrace the evidence, update our classrooms, and impact student learning in wildly positive ways," say Doug, Nancy, and John. So let ' s see Visible Learning for Literacy for what it is: the book that renews our teaching and reminds us of our influence, just in time.

Shows how QAR--a research-based approach for improving reading comprehension--provides a framework for questioning activities and illustrates how it can be integrated into all content areas.

Are there students in your classroom who have hit the reading wall? Studies indicate comprehension regresses in many students once they reach middle school. Teachers need the right resources in their classrooms for engaging students in reading. This book is a veritable encyclopedia of literacy strategies secondary teachers can apply to all content areas immediately. It integrates key strategies, research from top literacy experts, and proven intervention practices.

Prompt students to become the sophisticated readers, writers, and thinkers they need to be to achieve higher learning. The authors explore the important relationship between text, learner, and learning. With an array of methods and assignments to establish critical literacy in a discussion-based and reflective classroom, you ' ll encourage students to find meaning and cultivate thinking from even the most challenging expository texts.

The gains in knowledge about the nature of reading and how to most effectively teach it come from cognitive research. This booklet (in the form of a flipchart) synthesizes and summarizes much of the current research on effective instruction for improved literacy and greater student achievement. The booklet, a revised edition of "New Directions in Reading Instruction" (1988), contains almost all the topics in the original edition, as well as several new topics such as assessment, critical literacy, and instructional technology. The booklet is organized with a logical progression of topics divided into four sections: What Students Know; What Students Do; What Teachers Know; and What Teachers Do. The learning strategies offered in the booklet are designed to help educators model and demonstrate good reading and learning practices that help students learn more effectively. (Contains 41 references.) (NKA)
