People see strange things up North, and John Warms has collected stories of some very strange creatures in his travels throughout Manitoba and beyond. From well-known mystery animals like Sasquatch and lake monsters to lesser-known cryptids like giant beavers, "beaver ducks," and "underwater moose," these tales add breadth and depth to Canadian zoological folklore with plenty of material for cryptozoology enthusiasts to investigate. Strange Creatures Seldom Seen includes eyewitness sketches as well as full color illustrations by artist Jarmo Sinisalo. Author John Warms lives in Manitoba's north interlake region, where he is collecting stories for his next book.

The Seven Sleepers have seen their share of strange animals in Nuworld. But Josh and his friends have never seen anything like the animals in Dr. Korbo's country. Where did squirrels the size of elephants come from, anyway? Is the evil doctor somehow responsible? God knows how to put his people in the right place at the right time. So when the Sleepers hear what Dr. Korbo plans to do next, they decide to stop him. Follow Josh and company into danger and see what happens.

Explore the eerie world of giant squid, a creature never yet seen alive! Plunge into the darkest depths of the ocean and discover some of the strangest, most mysterious creatures on earth: giant squid. These amazing animals have eyes as large as volleyballs, can be as long as a city bus, and may weigh up to a ton. Without living specimens, scientists have only been able to study the dead bodies of giant squid that have washed ashore or been found by fishermen and compare them with the Architeuthis dux ' s nearly 500 smaller relatives. These mysterious behemoths are just as strange as more commonly seen squid, only their oddities are giant-sized. With beaks, suckers, three hearts, eight arms, and rubbery bodies made almost entirely of muscle, squid are among the most fascinating inhabitants of the ocean ' s deep. With rare and remarkable photographs and crystalline prose, Sandra Markle illuminates the world of these incredible creatures.

Did you know you share your home with monsters?! In this book explore the menagerie of tiny and unusual creatures--arthropods (insects, mites, and spiders)--found in our lawns and gardens, our food, our beds, our clothes, and even our eyelashes. You may not know it . . . but you share your home with monsters! Some of these monsters are so tiny that they were barely recognized, even by scientists, until the invention of the electron microscope. Although they may seem like aliens from another planet, these miniscule creatures live right alongside us. And just about all of them are harmless--and some are even helpful! In his signature cut- and torn-paper style, Steve Jenkins shows readers that--seen up close--these pesky critters are as fantastic looking as any creature on Earth. This Caldecott Honor-winning duo also uses informational graphics and diagrams to demonstrate just how big the critters are, where they live, and how many there might be in your home right this second!

Examines the adventures of such early explorers of America as Columbus, Dias, and Cabot. Includes information on the events, society, and superstitions of the times.

This early work by Phil Robinson was originally published in 1893 and we are now republishing it as part of our Cryptofiction Classics series. 'The Last of the Vampires' is a short story about a discovery of the remains of something that appears to be half-human, and the Amazonian legend that goes along with it. The Cryptofiction Classics series contains a collection of wonderful stories from some of the greatest authors in the genre, including Ambrose Bierce, Arthur Conan Doyle, Robert Louis Stevenson, and Jack London. From its roots in cryptozoology, this genre features bizarre, fantastical, and often terrifying tales of mythical and legendary creatures. Whether it be giant spiders, werewolves, lake monsters, or dinosaurs, the Cryptofiction Classics series offers a fantastic introduction to the world of weird creatures in fiction.
