convincing and skilled at manipulating and exploiting doctors. Investigating claims. If a healthcare professional suspects a person may have Munchausen's syndrome, they'll look at the person's health records to check for inconsistencies between their claimed and actual medical history.

### Munchausen's syndrome - NHS

The person behind the dementia. Life story work and reminiscence are inextricably linked. They both involve focusing on a person 's past and bringing their history to life – and into the present. The greatest benefit of this work is that it lifts a person 's mood – enabling them to talk about the ' good old days ' and share their ...
