As featured on Fresh Air with Terry Gross A do-it-herself guide to auto maintenance, roadside emergencies, and the real scoop on how women can get honest car service at the garage, from engineer turned auto mechanic and award-winning entrepreneur Patrice Banks. Do you feel lost when explaining your car problems to a mechanic? Do you panic when something goes wrong with your ride? Have you felt like you were being overcharged or pressured into unnecessary add-ons at the auto shop? Fear no more: The Girls Auto Clinic Glove Box Guide has got your back. So many women feel powerless, nervous, or embarrassed when taking our cars in for a repair, and yet we outnumber men both as drivers and as customers at auto repair shops The time has come for us to grab the wheel and finally take control of our cars. Filled with easy-to-follow illustrations and instructions, great tips, and lifesaving rules of thumb, The Girls Auto Clinic Glove Box Guide will help take away the confusion and mystery surrounding cars, teach women what they need to know about how their cars work, and what they need to do to keep them running smoothly. Patrice Banks was once like most of us: a self-professed “ auto airhead ” who was clueless about car maintenance, yet convinced that mechanics were taking advantage of her. Now she ’ s an auto pro devoted to empowering women to learn basic car repairs and knowing what to do in an emergency. So whether you get a flat tire when you ’ re stranded in the middle of nowhere, your car overheats, or a mysterious dashboard light suddenly starts blinking, help is just a reach-in-the-glove-box away.

A Moment in Time will encourage believers to entertain principles of grace-based theology and, after careful consideration, embrace them. When we ’ re convinced of the gracious simplicity in acquiring the free gift of eternal life, it impacts how we share our faith. When we ’ re confident this free gift can ’ t be lost, it calms us down. When we ’ re certain Christ will repay and recompense us for what we do with this free gift, we ’ re motivated to “ be holy ” as He is holy. In looking at the biblical text, Christians will be reminded that justification is provided at no cost to them. They ’ ll see there ’ s room for failure in the Christian life. But they ’ ll also learn where there ’ s great grace, there ’ s great accountability--and great reward. It is wonderful to see this fresh look at many of the grace issues at a popular level. Mark Spencer has given us an insightful look into the implications of grace in the task of evangelism and discipleship. Recommended reading!! --Dr. Joseph Dillow Mark Spencer has the wonderful ability to communicate deep biblical truths in an interesting and straightforward way. The reader will find a clear articulation of the grace message and convincing arguments against those who have corrupted it. I am glad to see this comprehensive and persuasive presentation of the gospel of grace and its implications. It will serve us well as we seek to share this message with the world. --Dr. Charlie Bing This is a book that needs to be taken seriously as a helpful guide to developing a strategic plan to be servants of Christ in our areas of influence. As Mark said, his last 25 years as a police officer went by overnight - so how fast will the years fly by in our lives? We all have a mission and an obligation to be useful to the Master. --Dr. John South

The follow up memoir to the bestselling **FRONTAL MATTER: GLUE GONE WILD**. The reader continues on the cancer treatment and recovery journey with Suzanne Samples. Her honesty, candidness and humor enables the reader to turn each page with empathy and hope.

Hyundai and Kia Motors: The Early Years and Product Development by Donald G Southerton provides deep insights into the rise of the Korean car industry. From the 1960s to early 2000s, political and economic forces impacted the growth and development of the South Korean carmakers, including Hyundai and Kia Motors. In addition, the brands at times partnered for technology with Ford, Mazda, and Mitsubishi, along with world class designers like Giorgetto Giugiaro. Expanding rapidly the Korean brands soon looked to new international markets, including the U.S. Despite the failure of Kia Motors to survive the IMF Crisis, the merger with Hyundai led to integrated technology research, development, and manufacturing-- not to mention the economies of scale needed for the Korean automaker to compete globally with industry heavyweights such as Toyota, Ford, GM, and VW. Car models discussed including the Kia's Brisa, Pride, Sephia, Sportage, and Rio along with Hyundai's Pony, Excel and Santa Fe.

Ford's 351 Cleveland was designed to be a 'mid-sized' V-8 engine, and was developed for higher performance use upon its launch in late 1969 for the 1970 models. This unique design proved itself under the hood of Ford's Mustang, among other high performance cars. The Cleveland engine addressed the major shortcoming of the Windsor engines that preceded it, namely cylinder head air flow. The Windsor engines just couldn't be built at the time to compete effectively with the strongest GM and Mopar small blocks offerings, and the Cleveland engine was the answer to that problem. Unfortunately, the Cleveland engine was introduced at the end of Detroit's muscle car era, and the engine, in pure Cleveland form, was very short lived. It did continue on as a low compression passenger car and truck engine in the form of the 351M and 400M, which in their day, offered little in the way of excitement. Renewed enthusiasm in this engine has spawned an influx of top-quality new components that make building or modifying these engines affordable. This new book reviews the history and variations of the 351 Cleveland and Ford's related engines, the 351M and 400M. Basic dimensions and specifications of each engine, along with tips for identifying both design differences and casting number(s) are shown. In addition to this, each engine's strong points and areas of concern are described in detail. Written with high performance in mind, both traditional power tricks and methods to increase efficiency of these specific engines are shared. With the influx of aftermarket parts, especially excellent cylinder heads, the 351 Cleveland as well as the 351M and 400M cousins are now seen as great engines to build. This book will walk you through everything you need to know to build a great street or competition engine based in the 351 Cleveland platform.
