Yayında 19 Aralık 2018. An important update of the Landireenzo Omegas calibration software has been released, now in version 4.2.0.33, which introduced some new features. Among the most important we can mention the linear autocalibration and the new oscilloscope, but the new firmware and a simplified initial interface have also been implemented. Another step to make everyday operations in the workshop easier. The update is available in the reserved area of the Landireenzo.com website.
